New York city. A few years ago Fasciano, then a widower with three children, married Rose Josepha, a widow with a family of grown-up children. Salvatore Pizzuto, who is best known as "Sam", married one of the widow's daughters. There was a strong dislike between the step-father and the husband of his step-daughter. Yesterday Vencenzo Josepha came from New York with his wife and three children to spend the holiday. During the evening Fasciano got out his revolver and fired three of the ball cartridges in the air in celebration of the day. They were obliged to go down street. They were obliged to go down a set of stone steps to reach the street and while they were upon the steps, Maria Fasciano, 14 year old daughter of the barber, came out of the house just across the way and besought the

men to stop their quarreling.

Suddenly several people saw the wrangiers come together. The Pizzutos must have had their knives open ready for the fray. As near as can ready for the fray.
